VERSIONS Available

To order Grammar Punk™ Homeschool, go to the **BUY PAGE** and order the material(s) of your choice. Let us know you want the Homeschool version by noting it in the Comments section (in PayPal) or simply email us at:

info@grammarpunk.com

Welcome to a new way of teaching grammar, punctuation, and writing skills. Welcome to Grammar Punk™ Home School. Grammar Punk's™ creator was home-schooled himself before becoming a high school English teacher. In those intervening years he noticed that not much had changed in the way basic grammar and punctuation was taught. Thus the Grammar Punk™ **K-3 Elementary**, **4-9 Intermediate**, and **9-12 Secondary** Programs were born.

The Grammar Punk™ Home School versions (curriculum and Tutorial) have been adapted to fit homeschool needs, however the basic format is the same as our "regular" versions (pictured on this site.) Check out the Grammar Punk™ Lessons and See The Dice and Cards page to learn more. Then simply order by clicking the BUY buttons and let us know you want the **HOMESCHOOL** version.

What *Child n' Parent* had to say about Grammar Punk™:

There's Nothing Punky about Grammar Punk™

Grammar Punk is a rebellious little program that has thrown out the lectures and note taking when it comes to grammar. Forget about having your child spend oodles of time memorizing all those picky grammar rules. Pick up a Grammar Punk package and watch them learn through fun dice games and creative writing processes. Created by an English teacher fed up with traditional grammar curriculum, this system teaches proper grammar in such a way that kids have fun learning and doing. The learning and doing regime actually helps kids retain more of what they learn. Doing is more fun than memorizing, and Grammar Punk dice games require kids to "to create their own sentences, dictated by the Grammar Punk dice and story cards." Grammar rules are practiced with each written sentence and grammar rules become part of the child's natural writing ability. There are five Packages which cater to different age groups and each one is packed with quality curriculum materials. The K-9 package offers 6 sets of specialized grammar punk dice, 66 story cards, worksheets, and 180 pages of "lesson a day, exercises, activities, games and challenges." There is a Creative Writing Course for older children and a Writer's kit complete with all kinds of "writing how to's." They even offer a homework package so that children participating through traditional schools can reinforce their grammar skills at home. When it comes to learning grammar, this fun "punky" program really has it together.
